INSTALLAZIONE FIALA LUBRIFICANTE

Lubricant vial installation

INCISIONE

Appoggiare la rotella d'incisione sulla piastrella e premere il portarotelle spingendolo verso la squadra.

SCORING

Put the scoring wheel on to the surface of the tile, press down on the incision handle, and push the scoring wheel towards the measurement guide.

TAGLIO • Terminata l'incisione, battere sul portarotelle per lo spacco.

SPLIT • When the tile has been scored, tap the incision handle to split the tile.
