# FRANKFURT BUSHHAMMER

**Patented** novel Bushhammer system with Frankfurt coupling.

#### TECNOLOGIES: ▼

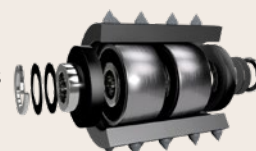

##### Basic®

**Armored structure** that **requires no maintenance** and ensures perfect operation under any condition and throughout the life of the rollers.

##### PLUS®

**Internal structure with "double shielding"**, prepared to withstand the maximum loads.  
**It does not require maintenance**, due to its very robust internal self-lubricated construction and its structural geometry.  
**Recommended for very hard stones.**

##### ACTIVE SHOCK() SYSTEM

**Revolutionary Axle Kit** thanks to this system it is possible to **efficiently absorb the knocks** that the rollers receive during their work.

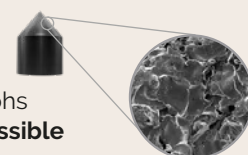

##### THERMOPRESS®

**Innovative system of vulcanized by hot pressing** used in the manufacture of technical tools. It overcomes the traditional construction system, **avoiding defective welds** and **manufacturing failures**.

**Sharpening system with high points performance** manufactured 100% with **Tungsten carbide**.

**Its hardness between 8.5 and 9.0 on the Mohs scale** ensures a product with the **highest possible resistance**, close to the diamond.

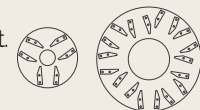

**"Frankfurt" type Bushhammer PATENTED system.**

**Its ease of self-assembly using interchangeable rollers** makes this product the most economical and fastest universal solution on the market.

**Its universal coupling type Frankfurt, with quick coupling change**, adapts to all machines on the market.  
**Avoids the laborious assembly of the traditional bushhammer plates, increasing productivity.**
